### PORTO RICO'S NEEDS

A Clear Statement of the Case by Delegate Larrinaga.

The Island Needs Civil Government and Must Have Tariff Relief

A clear and concise statement of the attitude of the people of Porto Rico with regard to the pending adjustment of their affairs was given today to a Star reporter by Mr. Tulio Larrinaga of San Juan, one of the federal delegates to Washington to at tend to the insular interests at this junc ture. Mr. Larrinaga, who is staying at the Hotel Cochran, is a civil engineer, and through his professional work has become thoroughly acquainted with every phase of the island's affairs. He speaks excellent English and expresses himself plainly and without agitation, yet with deep feeling

"Let the American people and Congres understand us thoroughly. We want, of course, free trade with the mainland. That is our chief desire as regards the tariff situation. But we need the civil govern-ment features of the pending bill even more keenly. We would be grateful for a reduction of the tariff rates from 160 per cent, of course. Anything less than the full Dingley rates would help us, by adding to our chances for finding a market. Our hope for free trade is based, however, upon the desire to see a principle established, not necessarily that the Constitution applies to us of its own force, but to permit us to feel that we have become in a tangible manner attached to the American Union. We want We would be grateful for a reduc attached to the American Union. We wan to feel that we belong to you and are of you, not that we are a mere dependency, to be treated precisely as any political whim may dictate.

### An Agricultural People.

"Perhaps it is not fully understood that we are almost exclusively an agricultural people At least 80 per cent of our inhabifor their living. The other 20 per cent thrive upon industries and professions and othe upon industries and professions and other callings which are themselves sustained by the plantations and the trade of the plantation workers. So that the plantation is the unit of our prosperity and anything that affects it unfavorably affects the whole population as certainly as any cause will produce its assured effect.

"Therefore industrially our great need is for a market. We have no market today. There is the very slightest profit possible upon any of our commodities, and upon those only which are produced by improved methods. Most of the plantations are not equipped with labor-saving machinery and their owners cannot today sell save at a

equipped with labor-saving machinery and their owners cannot today sell save at a loss. The warehouses are filled with har-vested crops, while the fields lie practically idle and the thousands of laborers who would otherwise be employed and prosper-ous are starving and dying.

### Civil Government Necessary.

"But it must not be thought that the lessening of the tariff rate will meet our needs. That would be only a temporary relief. It would permit us to market the stored crops and perhaps to start the plantations again upon a reduced scale. But i would not encourage capital to establish itself in the island, nor would it draw workers to us with labor and means. We need guarantees of stable government, civil government. The military government has been comparatively mild and just, but it is wrong in principle and is objectionable to the spirit of the people, who have been led to expect the other kind. Whatever the form—we do not hargle over forms—any form-we do not haggle over forms-any kind of civil government to replace the military administration would settle affairs upon a permanent basis and capital would eek investment, thus stimulating the in-

seex investment, thus summating the in-dustries of the island.

"So we hope that the Senate will not di-vide the pending bill or table the civil gov-ernment proposition. We need a free trade measure with civil government features, but we are willing in our great distress to accept a tariff measure with the civil gov-ernment features. We must have the laternment features. We must have the lat-ter or we perish. If we were not a Chris-tian people, and imbued with a regard for the sanctity of human life, we would will-ingly say to your Congress: 'If you will not us, than smitten by these conditions you

have imposed upon us."
"There should be no hesitation about adopting the free trade proposition, for there would be no trouble whatever for Porto Rico to raise all necessary revenue by internal taxation. We can raise \$1.500,-

oy internat taxation. We can raise \$1,500,-000 a year on rum alone. "We would need only about \$2,000,000 a year to run the insular government and give us plenty of chance to progress. Porto Rico has always been well to do. It was always able to respond to Spain's calls for money. It has always been a money lender. And yet we have paid the army, the clergy, the pensions and the heavy drafts from the Madrid ministries without a strain. And when General Miles marched through the Island there was a surplus of \$1.500,000 in the treasury. We have none of those heavy charges upon us now, and our task of self-support will be much easier than ever if only we have the chance.

No Effect Upon the World's Markets "It has been urged that our crops would unsettle the trade balances and injuriously affect the prices of sugar and coffee and tobacco. The absurdity of this statement is to be appreclated by a mere glance at the map, showing the small size of the land and the insignificance of this little plantation compared with all the sugar, coffee "We hope to see our coffee marketed in

"We hope to see our coffee marketed in the United States soon. We think it far better than Rio and as good as Mocha and Java. In Europe it is preferred to Mocha and Java. In the French cities restaurants will serve you almost invariably with Porto Rico coffee. It may not be called such, but it will be ours. We cannot find that market now, because the Spanish gate is closed to us; but we hope to teach the Americans to appreciate our coffee. It can be placed in your markets under favorable conditions at a lower rate than any other coffee, and yet your markets under favorable conditions at a lower rate than any other coffee, and yet it will challenge all others for flavor. And this fact is to be borne in mind, lest some high-tariff advocate should be frightened at the prospect of a market flooded with our coffee: The city of New York alone, if it were so disposed, could more than consume every pound of coffee the whole Island of Porto Rico could possibly grow."

## LAW RELATING TO NUISANCES.

Cognizance of Complaints Against Alleged Indecent Theatrical Shows.

Maj. Sylvester, the chief of police, has forwarded to Commissioner Wight a copy of section 385 of the penal code of the state of New York defining a public nuisance.

According to the New York law a public nuisance is a crime against the order and economy of the state, and consists in unlawfully doing an act, or omitting to perform a duty, which act or omission either annoys, injures or endangers the comfort, repose, health or safety of any considerable number of persons, offends public decency, unlawfully interferes with, obstructs or tends to obstruct, or render dangerous for passage, a lake, or a navigable river, bay, stream, canal or basin, or a public park, square, street or highway, or in any way renders a considerable number of persons insecure in life or the use of property.

"Under this law," says Maj. Sylvester, "it seems that a case must first be taken before a committing magistrate, when, if held, it goes before the court, and, if requested, a jury, for trial.

"Under existing law in the District of Columbia, I am informed that where a place of amusement or other institution becomes obnoxious to any congregation of people it may be taken before the grand jury and indictment secured. Perhaps the attorney for the District of Columbia can enlighten you further upon this subject."

Commissioner Wight has recommended that the matter be referred to the attorney of persons, offends public decency, unlaw-

you further upon this subject."

Commissioner Wight has recommended that the matter be referred to the attorney for the District for an opinion as to "whether under the present law action could be taken by submitting a case to the grand jury, as suggested by the major and superintendent, and if not, if he can suggest any other way in which exhibitions immoral and indecent can be dealt with."

Mr. Wight's recommendation has been approved by his associates, and it is understood the attorney's opinion is desired because of complaints which have been made to the Commissioners of alleged immoral and indecent theatrical performances and exhibitions given here.

-Freight Wrecked.

Special Disputch to The Evening Star. CUMBERLAND, Md., March 21.-The Cumberland Valley Cement Company, man facturers of hydraulic cement, have re sumed operations at their plant at Cedar Cliff, on the West Virginia Central railroad five miles west of Cumberland. They will this spring rebuild the plant, putting in all new, improved grinding machinery, and a new air compressor to operate the drills in the quarries. They will add four more kilns and expect to manufacture one hundred thousand barrels of cement this season. The company is composed almost entirely of Washingtonians. S. Dana Lincoln is president; Joseph G. Waters, vice president and treasurer; P. J. Brennan, secretary, and Robert Dalton, jr., assistant sec-retary. James Grant of Cumberland is su-perintendent. Demands Caused Discharge.

# A force of laborers employed by the Po

tomac Steel Company struck for \$1.25 a day yesterday, or 15 cents advance. When they presented their grievance to Presiden S. J. Macfarren he at once ordered them off the premises and put other men on. The men had recently been given a voluntary raise of 10 cents.

### Wreck of Freight Train.

Local freight No. 39 was wrecked on the West Virginia Central and Pittsburg railway, four miles south of Parsons, W. Va., two were turned over a declivity. One man was slightly hurt. The wreck was caused by a broken axle. The track was blocked six hours. yesterday. Four cars were derailed and

The independent tin plate mill operated here by the Taylors of Philadelphia is very busy. It is expected that the fourth of the 26-inch mills in the plant, which is being gotten in readiness, will be started up Monday. Then 140 men will be employed. The stagnation in South Cumberland following the closing down of the Cumberland mill by the trust has been dispelled.

E. E. Place of Hartford, Conn., has been appointed general yardmaster for the Bal-timore and Ohio railroad at Cumberland, succeeding John M. Niland, who will be transferred.

# The Sitting Waltz

are young people who induge in the giddy mares of the waltz will hear with interest that the heads of Washington and New York society have declared that "sitting out" a waltz will be more fashionable from now on than dancing. The "sitting out" embodies the same position as dancing—the only difference is that you sit instead of dance. The man's right arm is around the girl's waist, while his left hand holds her right. Her left hand is placed on his shoulder, while her head week. is placed on his shoulder, while her head rests lovingly on his bosom, and all they have to do is

# Something Like It

A whole roomful of people sitting around on sofas, hugging to music, would be "great," and not only so, but this arrangement would give the old rheumatic brethren another good chance to waitz.

And while many a man may lose his appetite for
dancing, he has to get powerful old before he loses
his appetite for that kind of a waltz. However,
that has nothing to do with the fast service we
than the property in either (RMAIN of can give you on orders, in either GRAIN of STOCKS, over our 3 New York wires. Send for our free book explaining margin trading.
